PROFESSIONAL EXPERIENCE

Video Editor | Content Strategist | Graphic Designer

- At Vision11, I worked as a Video Editor & Graphic Designer from July 2023 to July 2025, where I was responsible for designing visuals related to IPL teams and upcoming matches. My role involved editing sports-related videos, creating engaging content for fan interaction, and ensuring consistent branding across all digital platforms. I collaborated closely with the marketing and creative teams to deliver high-impact visuals and videos that resonated with the cricket community.
- From January 2022 to June 2022, I worked at Widecanvas AI as a Content Creator, Video Editor, and Graphic Designer. I was responsible for creating and editing videos tailored for AI-based product showcases, designing graphics for tech-driven campaigns, and developing content that aligned with the brand's innovative identity. My contributions helped enhance the company's digital presence and effectively communicated complex AI concepts through visually engaging content.

My Work:

ACHIEVEMENTS

- Grew Instagram following to 17k by consistently posting engaging content and video edits for personal and client projects.
- Built a professional LinkedIn network of 12k connections by sharing industry insights, content creation tips, and collaborating with peers.
- Bought my first iPhone through freelancing earnings, showcasing the potential and success of freelancing as a sustainable income source.

Hobbies:

- Experimenting with video editing and graphic design to create unique visual content.
- Analyzing cricket matches and player stats for sports trading strategies.
- Exploring creative problem-solving through strategic games and design challenges.
